Tenured and Promoted Faculty

2012-2013

Prepared by the Office of the Provost
The faculty is at the core of Emory’s intellectual community. As academic leaders at our residential liberal arts research university, the faculty impacts all parts of our mission. This year, 33 faculty members received tenure at Emory and an additional 26 were promoted to Professor. Eleven are new to Emory. Members of the Academic Affairs Committee of the Board of Trustees, along with the President and Provost, congratulate you on your success. We will be counting on your continued leadership and service to Emory and the broader community.

The award of tenure and/or promotion symbolizes our joint commitment to what Emory is and does. It is a call to contribute through new scholarship, pedagogical advances, scientific breakthroughs, and care delivery. As stakeholders, we express our collective responsibility to the University and its vision of an inquiry-driven, ethically engaged, and diverse intellectual community.

Those of you recognized today have persevered in the triad of teaching, research and service in your respective fields. We salute your success thus far and are confident of the contributions you will continue to make in the lives of many.

We celebrate your accomplishments, your aspirations for the future, and all that we will accomplish together.

Chilton D. Varner
Chair, Academic Affairs Committee
Board of Trustees

James W. Wagner, PhD
President

Claire E. Sterk, PhD
Provost and Executive Vice President
for Academic Affairs

About Emory’s Colleges and Schools 22

Members of the Academic Affairs Committee 2012-2013 27

Members of the Presidential Advisory Committee 2012-2013 27
Jehu J. Hanciles, PhD
D.W. and Ruth Brooks Associate Professor of World Christianity
Jehu J. Hanciles completed his PhD in the History of World Christianity at the University of Edinburgh (1995). Prior to joining the faculty at Emory in 2012, he held positions at Africa University and Fuller Theological Seminary. His primary areas of research are the history of world Christianity, globalization, and migration. His articles have been published in a number of leading journals including Interkulterele Theologie: Zeitschrift für Missionswissenschaft, International Bulletin of Missionary Research, Missiology, and Studies in World Christianity.

David T. Jacho-Chavez, PhD
Associate Professor of Economics
David T. Jacho-Chavez completed his PhD in Economics at the London School of Economics and Political Science (2006). Prior to joining the faculty at Emory in 2011, he held positions at Indiana University. His primary research focus is theoretical and applied econometrics and statistics. His articles have been published in a number of leading journals including Journal of Econometrics, Econometric Theory and the Journal of the American Statistical Association, among many others.

Stella Lourenco, PhD
Associate Professor of Psychology
Stella Lourenco completed her doctoral degree in Psychology at the University of Chicago (2006). She joined the faculty at Emory as an assistant professor in January 2007 immediately upon completing her degree. Her research is concerned with how, at different stages of development, humans “make sense” of their physical environments by representing important aspects of experience for use in later interactions with objects and people. Her articles have been published in a
number of leading journals including *Proceedings of the National Academy of Sciences, Psychological Science*, and *Current Biology*.

**Andrew Mitchell, PhD**  
*Associate Professor of Philosophy*  
Andrew Mitchell completed his PhD in Philosophy at the State University of New York at Stony Brook (2001). Prior to joining the faculty at Emory in 2007, he held positions at Stanford University and California State University, Stanislaus. His primary research focus is in 19th and 20th century European philosophy, particularly aesthetics and philosophy of literature. His articles have been published in a number of leading journals including *Research in Phenomenology, Telos*, and *Continental Philosophy Review*.

**Thomas D. Rogers, PhD**  
*Associate Professor of History*  
Thomas D. Rogers completed his PhD in History at Duke University (2005). Prior to joining the faculty at Emory in 2011, he held positions at University of North Carolina, Charlotte and was Fulbright visiting professor at Federal University of Pernambuco, Brazil. His primary research focus is modern Latin America, with a focus on labor and environmental histories. His articles have been published in a number of leading journals including *Luso-Brazilian Review*, and *Clio*. His book, *The Deepest Wounds: A Labor and Environmental History of Sugar in Northeast Brazil*, (Chapel Hill: University of North Carolina Press, 2010) received the Warren Dean Prize, Conference on Latin American History, 2011 and Henry A. Wallace Prize, Agricultural History Society, 2011, two distinguished awards in the field of Latin American history.

**Connie Roth, PhD**  
*Associate Professor of Physics*  
Connie Roth completed her PhD in Physics at the University of Guelph in Canada (2004). Prior to joining the faculty at Emory, she worked as a postdoctoral fellow at Northwestern University. Her area of research is in experimental soft condensed matter physics. Her articles have been published in a number of leading journals including *Journal of Polymer Science, Macromolecules*, and *Physical Review*.

**James Taylor, PhD**  
*Associate Professor of Biology and Mathematics and Computer Science*  
James Taylor completed his PhD in Computer Science at Pennsylvania State University (2006). Prior to joining the faculty at Emory in
2008, he held positions at New York University and Penn State. His primary research focus is genome informatics, with an emphasis on software and data-intensive investigations of comparative and functional genomics. His articles have been published in a number of leading journals including the Proceedings of the National Academy of Science, Cell, Genome Research, and Nature.

**APPOINTMENT TO ASSOCIATE PROFESSOR WITH GRANT OF TENURE**

**Marc Bousquet, PhD**  
**Associate Professor of English**

Marc Bousquet completed his PhD in English at the CUNY Graduate Center (1997). Prior to joining the faculty at Emory in 2012, he held tenured positions at the University of Louisville and Santa Clara University, and a visiting position at Indiana University. His primary research focus is new media and participatory culture. He has been a regular featured contributor to the Chronicle of Higher Education and has been published in leading journals such as Social Text, JAC, Pedagogy, College English, Cinema Journal, Arizona Quarterly, New England Quarterly, Minnesota Review and SAQ.

**PROMOTION TO PROFESSOR CURRENTLY HOLDING TENURE**

**Keith Berland, PhD**  
**Professor of Physics**

Keith Berland completed his PhD in Physics at the University of Illinois (1995). Prior to joining the faculty at Emory University, he worked as a visiting scientist in the T. J. Watson Research Center at IBM. His area of research is molecular and cellular biophysics. His articles have been published in a number of leading journals including Biophysics, Physical Review, Nuclear Physics and the Journal of Biomedical Optics.

**Clifford Carrubba, PhD**  
**Professor of Political Science**

Clifford Carrubba completed his PhD in Business at Stanford University (1998). Prior to joining the faculty at Emory in 2000, he held a position in the department of political science at SUNY Stony Brook. His primary research interests are in political institutions, the politics of the law, and formal theory. His articles have been published in a number of leading journals including American Political Science Review, American Journal of Political Science, Journal of Politics, International Organization, and Political Analysis.
Timothy J. Dowd, PhD
Professor of Sociology
Timothy J. Dowd completed his PhD in Sociology at Princeton University (1996). His first position was as an assistant professor at Emory University. His primary research focus is on cultural and organizational sociology, particularly with regards to factors shaping the production and dissemination of music, as well as musicians’ careers. His articles have been published in leading journals, such as *Administrative Science Quarterly, American Sociological Review, Poetics: Journal of Empirical Research on Culture, the Media and the Arts*, and *Social Forces*.

Stephan Hamann, PhD
Professor of Psychology
Stephan Hamann completed his doctoral degree in Psychology at the University of Toronto (1993). Prior to joining the faculty at Emory in 1996, he conducted postdoctoral work at the University of California, San Diego and the VA Medical Center, San Diego. His primary research focus is on cognitive and neural mechanisms underlying human emotion, memory, and their interaction. His articles have been published in a number of leading journals including *Nature Neuroscience, Psychological Science*, and the *Journal of Cognitive Neuroscience*.

William G. Kelly, PhD
Professor of Biology
William G. Kelly completed his PhD in Biochemistry at the Johns Hopkins University School of Medicine (1993). Prior to joining the faculty at Emory in 2000, he completed a postdoctoral fellowship in the laboratory of the Nobelist Andrew Fire at the Carnegie Institution of Washington, Department of Embryology. His primary research focus is epigenetic regulation of stem cells and trans-generational epigenetic inheritance. His articles have been published in a number of leading journals including *Cell, Developmental Cell, Nature Genetics, Nature Reviews Genetics, PLoS Genetics, Current Biology, Genetics*, and *Development*.

Corey Keyes, PhD
Professor of Sociology
Corey Keyes completed his PhD in Sociology at the University of Wisconsin (1995), and joined Emory in 1997. His primary research is in positive mental health. His articles have been published in the *American Psychologist, Social Science and Medicine, American Journal of Public Health*, and *Behavior Genetics*. 
James Kindt, PhD  
Professor of Chemistry  
James Kindt completed his PhD in Chemistry at Yale University (1999). Prior to joining the faculty at Emory in 2001, he held a postdoctoral position at UCLA. His primary research focus is the computational and theoretical modeling of lipid bilayers and other molecular assemblies. His articles have been published in a number of leading journals including the *Journal of the American Chemical Society*, *Biophysical Journal*, and the *Journal of Chemical Physics*.

Valérie Loichot, PhD  
Professor of French and Italian and English  
Valérie Loichot completed her PhD in French at Louisiana State University (1996). Prior to joining the faculty at Emory in 2000, she held positions at Washington College. Her primary research focus is literatures and cultures of the Francophone and Anglophone Caribbean and of the U.S. South and Post-Slavery Literatures. Her articles have been published in a number of leading journals including *Journal of French and Francophone Philosophy*, *the Canadian Review of Comparative Literature*, *Small Axe: A Caribbean Platform for Criticism*, *the International Journal of Francophone Studies*, and *The French Review*.

Hiram H. Maxim, PhD  
Professor of German Studies  
Hiram H. Maxim completed his PhD in German with a specialization in foreign language pedagogy at the University of Texas at Austin (1999). Prior to joining the faculty at Emory in August 2007, he held positions in the German Department of Georgetown University and the German Section of the Department of Modern Languages at the University of Tennessee, Knoxville. His primary research focus is instructed adult second language acquisition with specific interest in the relationship between second language reading and writing and curricular approaches that facilitate that intersection. His articles have been published in a number of leading journals including *Die Unterrichtspraxis*, *ITL International Journal of Applied Linguistics*, *Modern Language Journal*, *ADFL Bulletin*, and *Foreign Language Annals*.

Noëlle McAfee, PhD  
Professor of Philosophy  
Noëlle McAfee completed her PhD in Philosophy at the University of Texas, Austin (1998). Prior to joining the faculty at Emory in 2010, she held positions at George Mason University and the University of
Massachusetts, Lowell. Her primary research focus is in social and political philosophy, particularly feminist theory, deliberative democracy, and pragmatism. Her articles have been published in a number of leading journals including the *Journal of Speculative Philosophy*, *Contemporary Pragmatism*, and *Philosophy and Social Criticism*.

**Eric Nelson, MusD**  
**Professor of Music**

Eric Nelson completed his doctoral degree in Choral Conducting at Indiana University (1991). Prior to joining the faculty at Emory in 1997, he taught at Houghton College and Bloomsburg University. In addition to being the Director of Choral Activities at Emory, Nelson is also the Artistic Director of the Atlanta Sacred Chorale. He has conducted choirs throughout the world, including Carnegie Hall, the Vatican, and the Sydney Opera House.

**Karen Stolley, PhD**  
**Professor of Spanish and Portuguese**

Karen Stolley completed her PhD in Spanish at Yale University (1985). Prior to joining the faculty at Emory in 1992, she held positions at Vassar College, Middlebury Summer Language Schools (Spanish School) and the University of Pennsylvania (visiting). Her primary research focus is colonial and eighteenth-century Spanish America. Her articles have been published in a number of leading journals including *Dieciocho, Revista de Estudios Hispánicos*, and the *Latin American Literary Review*.

**Garth Tissol, PhD**  
**Professor of Classics**

Garth Tissol completed his PhD in Classics at the University of California, Berkeley (1988). He joined Emory’s faculty in 1987 on a temporary position and received a regular appointment in 1989. His primary research focus is Latin literature of the Augustan and imperial periods, and he has a secondary focus on English literature and the Classics. His books have been published by Princeton University Press and Cambridge University Press, and his articles have appeared in such journals as *Harvard Studies in Classical Philology, Arethusa*, and *Translation and Literature*. 
Giacomo Negro, PhD  
Associate Professor of Organization and Management

Giacomo Negro completed his PhD in Management at Università Commerciale L. Bocconi, Milan, Italy (2004). Prior to joining the faculty at Emory in 2008, he held faculty positions at Durham University and Università Commerciale L. Bocconi, and visiting scholar positions at Stanford University and UCLA. His primary research focuses on three key areas: category spanning within industries, effect of individual and organization network ties on performance, and the study of individual or organizational stigma. His articles have been published in leading journals including *Academy of Management Journal*, *Administrative Science Quarterly*, *American Sociological Review*, and *Organization Science*.

Anandhi Bharadwaj, PhD  
Professor of Information Systems and Operations Management

Anandhi Bharadwaj completed her PhD in Management Information Systems at Texas A&M University (1993). Prior to joining the faculty at Emory in 1994, she was a graduate research assistant at Texas A&M University. Her primary research focuses on three distinct, but inter-related areas: sources and consequences of information technology (IT) and business value, IT outsourcing, and health information systems. Her articles have been published in numerous leading journals including *Information Systems Research*, *MIS Quarterly*, *Management Science*, *Organization Science*, and *Production and Operations Management Journal*.
Angela Frederick Amar, PhD, PMHCSN-BC, FAAN
Associate Professor of Nursing
Angela Frederick Amar completed her PhD in Nursing at the University of Pennsylvania (2003). Prior to joining the faculty at Emory in 2012, she held positions at Boston College and Georgetown University. Her primary research focus is prevention, reporting of, and mental health consequences of intimate partner violence, sexual assault, and stalking in older adolescents. Her articles have been published in a number of leading journals including Nursing Research, Nursing Outlook, and Journal of Forensic Nursing.

Lynn Sibley, PhD, RN, FAAN, FACNM
Professor of Nursing
Lynn Sibley completed her PhD in Anthropology at the University of Colorado (1993). Prior to joining the faculty at Emory in 2003, she held positions at the American College of Nurse-Midwives and University of Colorado. Her primary research focus is improving maternal and newborn health in low resource settings. Her articles have been published in a number of leading journals including the Cochrane Collaboration of Systematic Reviews, the Journal of Midwifery and Women’s Health, and Social Science and Medicine.

Jeffery Galle, PhD
Associate Professor of English
Jeffery Galle completed his PhD in English at Louisiana State University (1991). Prior to joining the faculty at Emory in 2008, he held a position at the University of Louisiana at Monroe. His primary research focus is Renaissance drama and the pedagogy of inquiry-guided learning. His articles have been published in a number of leading journals including the International Journal of the Scholarship of
Teaching and Learning and The Teaching Professor as well as in the edited volume Integrated General Education. He was selected as an Emory University Distinguished Teaching Scholar, 2009-2010.

PROMOTION TO ASSOCIATE PROFESSOR WITH GRANT OF TENURE

Henry Bayerle, PhD
Associate Professor of Latin

Henry Bayerle completed his PhD in Comparative Literature at Harvard University (2004). Prior to joining the faculty at Emory in 2006, he held positions at Harvard University and the University of Miami. His primary research focus is the reception of the classics, Medieval Latin literature, and the pedagogy of language, literature, and writing. His articles have been published in a number of edited volumes including Écriture et réécriture du merveilleux féerique: Autour de Mélusine; What’s the Problem with Revenge? Exploring the Conundrum; Festschrift for Gregory Nagy; and The Oxford Dictionary of the Middle Ages.

ROLLINS SCHOOL OF PUBLIC HEALTH

GRANT OF TENURE WITHIN RANK

Zhaohui (Steve) Qin, PhD
Associate Professor of Biostatistics and Bioinformatics

Zhaohui (Steve) Qin completed his PhD in Statistics at the University of Michigan (2000). Prior to joining the faculty at Emory in 2010, he was a faculty member at the University of Michigan. His primary research focus is statistical genetics and genomics. His articles have been published in a number of leading journals including Science, Cell, Bioinformatics and Nature.

PROMOTION TO ASSOCIATE PROFESSOR WITH GRANT OF TENURE

Brent Johnson, PhD
Associate Professor of Biostatistics and Bioinformatics

Brent Johnson completed his PhD in Statistics at North Carolina State University (2003). Prior to joining the faculty at Emory in 2006, He was a postdoctoral fellow at the University of North Carolina at Chapel Hill. His primary research focus is semi-parametric methods
for missing data problems and causal inference, selection bias and model selection in low- and high-dimensions. His articles have been published in a number of leading journals including *Journal of the American Statistical Association, Biometrika, Biometrics* and *Journal of the Royal Statistical Society*.

**Saad B. Omer, MBSS, MPH, PhD**  
*Associate Professor of Global Health*  
Saad B. Omer completed his MBBS at the Aga Khan University Medical College in Pakistan (1998) and his PhD in Global Disease Epidemiology at Johns Hopkins University (2007). Prior to joining the faculty at Emory in 2008, he was assistant scientist at Johns Hopkins University Bloomberg School of Public Health. His primary research focus is vaccine efficacy and impact and the causes and consequences of those refusing vaccines. His articles have been published in a number of leading journals including the *New England Journal of Medicine, Journal of the American Medical Association, British Medical Journal* and *American Journal of Public Health*.

**Justin V. Remais, PhD**  
*Associate Professor of Environmental Health*  
Justin V. Remais completed his PhD in Environmental Health Sciences at the University of California, Berkeley (2006). Prior to joining the faculty at Emory in 2008, he was a research scientist at the University of California, Berkeley. His primary research focus is how the environment shapes the dynamics and distribution of infectious diseases. His articles have been published in a number of leading journals including *The Lancet, Environmental Health Perspectives, American Journal of Public Health* and *Bulletin of the World Health Organization*.

**Tianwei Yu, PhD**  
*Associate Professor of Biostatistics and Bioinformatics*  
Tianwei Yu completed his PhD in Statistics at the University of California, Los Angeles (2005). Prior to joining the faculty at Emory in 2006, he was an assistant researcher at the University of California, Los Angeles. His primary research focus is the development of methods to study biological systems using high-throughput technologies such as DNA microarrays, deep sequencing and mass spectrometry that generate massive high dimensional data sets. His articles have been published in a number of leading journals including *Genomics, Bioinformatics, Circulation* and *Vaccine*. 
PROMOTION TO PROFESSOR WITH GRANT OF TENURE

Patrick Sullivan, DVM, PHD
Professor of Epidemiology
Patrick Sullivan completed his DVM (1992) and PhD in Comparative and Experimental Medicine at the University of Tennessee (1994). Prior to joining the faculty at Emory in 2008, he held positions at the US Centers for Disease Control and Prevention. His primary research focus is HIV and AIDS in men who have sex with men. His articles have been published in a number of leading journals including *AIDS*, *Archives of Internal Medicine, American Journal of Public Health*, and *Journal of the American Medical Association*. He is a graduate of Emory College (1988) where he was a Woodruff Scholar.

PROMOTION TO PROFESSOR CURRENTLY HOLDING TENURE

Carolyn Drews-Botsch, PhD, MPH
Professor of Epidemiology
Carolyn Drews-Botsch completed her PhD in Epidemiology at the University of California, Los Angeles (1988). She joined the faculty at Emory in 1988. Her primary research focus is on improving the quality of applied epidemiologic methods to study children’s health. Her articles have been published in a number of leading journals including *American Journal of Public Health, American Journal of Epidemiology, Epidemiology* and *American Journal of Ophthalmology*.

John Hanfelt, PhD
Professor of Biostatistics and Bioinformatics
John Hanfelt completed his PhD in Biostatistics at Johns Hopkins University (1994). Prior to joining the faculty at Emory in 1998, he was assistant professor at Georgetown University. His primary research focus is high-throughput proteomics, neurodegenerative diseases and analysis of sparse dependent data. His articles have been published in a number of leading journals including *Journal of the Royal Statistical Society, Biometrics, Statistics in Medicine* and *Biometrika*.

Yijian (Eugene) Huang, PhD
Professor of Biostatistics and Bioinformatics
Yijian (Eugene) Huang completed his PhD in Biostatistics at the University of Minnesota (1997). Prior to joining the faculty at Emory in 2004, he was a faculty member at the University of Washington.
Fred Hutchinson Cancer Research Center. His primary research focus is survival analysis, covariate measurement error and quantile regression. His articles have been published in a number of leading journals including *Biometrika, Journal of the American Statistical Association, Journal of the Royal Statistical Society* and *Biostatistics*.

**Michelle Kegler, DrPh, MPH**  
**Professor of Behavioral Sciences and Health Education**  
Michelle Kegler completed her DrPH in Health Behavior and Health Education at the University of North Carolina at Chapel Hill (1995). Prior to joining the faculty at Emory in 1999, she was on the faculty of the College of Public Health, University of Oklahoma Health Sciences Center. Her primary research focus is developing and evaluating interventions for community primary prevention and control of chronic disease such as cancer. Her articles have been published in a number of leading journals including *American Journal of Preventive Medicine, Health Education Research, Social Science and Medicine* and the *American Journal of Public Health*.

**Usha Ramakrishnan, PhD**  
**Professor of Global Health**  
Usha Ramakrishnan completed her PhD in International Nutrition at Cornell University (1993). Prior to joining the faculty at Emory in 1996, she was a postdoctoral fellow at Emory. Her primary research focus is maternal and child nutrition, birth outcomes and childhood growth and development. Her articles have been published in a number of leading journals including *Journal of Nutrition, American Journal of Epidemiology, American Journal of Clinical Nutrition* and *The Lancet*.

**APPOINTMENT TO PROFESSOR WITH GRANT OF TENURE**

**Thomas Clasen, JD, PhD**  
**Rose Salamone Gantarosa Chair in Sanitation and Safe Water**  
**Professor of Environmental Health**  
Thomas Clasen completed his PhD in Infectious Diseases at the University of London (2006). He previously completed a JD degree at Georgetown University (1981) followed by a career in international law. Prior to joining the faculty at Emory in 2013, he was a faculty member at the London School of Hygiene and Tropical Medicine. His primary research focus is water, sanitation and health and his articles have been published in a number of leading journals including *International Journal of Epidemiology, American Journal of Tropical Disease*.
Terryl Hartman, PhD
Professor of Epidemiology
Terryl Hartman completed her PhD in Nutrition at the University of Minnesota (1995). Prior to joining the faculty at Emory in 2012, she was Professor at the Pennsylvania State University. Her primary research focus is the role of diet and nutrition in the etiology of chronic diseases, particularly cancer. Her articles have been published in a number of leading journals including *Journal of the American Medical Association, American Journal of Clinical Nutrition, American Journal of Epidemiology* and *Cancer Epidemiology*.

Mary L. Dudziak, JD, PhD
Asa Griggs Candler Professor of Law
Mary L. Dudziak completed her JD (1984) and her PhD in American Studies (1992) at Yale University. Prior to joining the faculty at Emory in 2012, she held positions at the University of Southern California Law School and University of Iowa College of Law. Her primary research focuses on the impact of war on American democracy and on the relationship between international affairs and American legal history. She has authored three books, two with Oxford University Press and one with Princeton University Press. Her articles have been published in a number of leading journals, including *Journal of American History, the California Law Review* and the *Duke Law Journal*. 
Timothy Read, PhD  
Associate Professor of Medicine  
Timothy Read completed his PhD in Biological Sciences at Royal Holloway College University of London (1988). Prior to joining the faculty at Emory in 2009, he held positions at the Institute for Genomic Research and Naval Medical Research Center. His primary research interests center on the application of genomics technologies to understanding infectious diseases. His articles have been published in a number of leading journals including *Nature* and *Science*.

George R. Beck, Jr., PhD  
Associate Professor of Medicine  
George R. Beck, Jr. completed his PhD in Molecular Biology and Genetics at Temple University (2000). Prior to joining the faculty at Emory in 2005, he held positions at Alfred I. DuPont Institute Nemours Children Hospital and SmithKline Beecham Pharmaceutical Co. His primary research focus is cancer and bone metabolism. His articles have been published in a number of leading journals including *American Journal of Respiratory and Critical Care Medicine* and *American Journal of Physiology–Gastrointestinal and Liver Physiology*.

Tamara Caspary, PhD  
Associate Professor of Human Genetics  
Tamara Caspary completed her PhD in Molecular Biology at Princeton University (1999). She joined the faculty at Emory upon completion of her postdoctoral fellowship at Sloan Kettering Institute. Her primary research focus is mammalian nervous system development. Her articles have been published in a number of leading journals including *Nature Genetics* and *Genes and Development*.

Michael E. Davis, PhD  
Associate Professor of Biomedical Engineering  
Michael E. Davis completed his PhD in Molecular and Systems Pharmacology at Emory University (2003). He joined the faculty at Emory upon completion of his postdoctoral fellowship at Brigham and Women’s Hospital. His primary research focuses on the role of
oxidative stress in cardiac dysfunction following myocardial infarction. His articles have been published in a number of leading journals including *Circulation* and *Circulation Research*.

**Baowei Fei, PhD**  
**Associate Professor of Radiology and Imaging Sciences**  
Baowei Fei completed his PhD in Systems Engineering at Case Western Reserve University (2008). Prior to joining the faculty at Emory in 2009, he held positions at Case Western Reserve University. His primary research focus is biomedical imaging for prostate cancer detection, diagnosis, and therapy. His articles have been published in a number of leading journals including *Journal of the American Chemical Society*, *Journal of Nuclear Medicine*, and *Medical Physics*.

**Adam I. Marcus, PhD**  
**Associate Professor of Hematology and Medical Oncology**  
Adam I. Marcus completed his PhD in Biology at Pennsylvania State University (2002). He joined the faculty at Emory upon completion of his postdoctoral fellowship at Emory University. His primary research focus is cell adhesion and polarity. His articles have been published in a number of leading journals including *Development*, *Journal of Biological Chemistry*, and *Molecular Biology of the Cell*.

**Lisa A. Parr, PhD**  
**Associate Professor of Psychiatry and Behavioral Sciences**  
Lisa A. Parr completed her PhD in Psychology at Emory University (2000). Prior to joining the faculty at Emory in 2005, she held positions at Yerkes National Primate Center. Her primary research focuses on the behavior, neurobiology and development of primate social cognition, specifically face processing. Her articles have been published in a number of leading journals including *Nature*, *Journal of Comparative Psychology*, and *Behavioral Neuroscience*.

**Michael E. Zwick, PhD**  
**Associate Professor of Human Genetics**  
Michael E. Zwick completed his PhD in Biological Sciences at the University of California at Davis (1998). He joined the faculty at Emory in 2004. His primary research interests include autism, congenital heart defects in Down syndrome, Crohn’s disease, and juvenile arthritis. His articles have been published in a number of leading journals including *Genome Biology*, *Human Molecular Genetics*, and *Genomics*. 
PROMOTION TO PROFESSOR CURRENTLY HOLDING TENURE

Muta M. Issa, MD, MBA
Professor of Urology
Muta M. Issa completed his MD at The Royal College of Surgeons in Ireland (1983). Prior to joining the faculty at Emory in 1997, he held a position at Stanford University School of Medicine. His primary research interests include benign prostatic hyperplasia, bladder cancer and tumors, circumcision, kidney cancer, kidney stones, prostate cancer, testicular cancer, urinary diversion, and vasectomy. His articles have been published in a number of leading journals including *Journal of Urology* and *Urology*.

Peng Jin, PhD
Professor of Human Genetics
Peng Jin completed his PhD in Molecular and Developmental Biology at the University of Cincinnati College of Medicine (1999). He joined the faculty at Emory upon completion of his postdoctoral fellowship at Emory University. His primary research focus is Epigenetics and Noncoding RNAs in Development and Human Diseases. His articles have been published in a number of leading journals including *Cell*, *Nature Neuroscience*, and *Human Molecular Genetics*.

Kerry J. Ressler, MD, PhD
Professor of Psychiatry and Behavioral Sciences
Kerry J. Ressler completed his PhD in Neuroscience (1995) and MD (1997) at Harvard University Medical School. He joined the faculty at Emory upon completion of his postdoctoral fellowship at Emory. His primary research focuses on the genetics and phenotypes that underlie Posttraumatic Stress Disorder with the goal of understanding the molecular mechanisms that contribute to fear-related disorders. His articles have been published in a number of leading journals including *Cell*, *Nature*, and *Biological Psychiatry*.

David Weinshenker, PhD
Professor of Human Genetics
David Weinshenker completed his PhD in Genetics at the University of Washington (1997). He joined the faculty at Emory upon completion of his postdoctoral fellowship at Howard Hughes Medical Institute and the University of Washington. His primary research interests are drug addiction, epilepsy, depression, sleep, and neurodegenerative diseases. His articles have been published in a number of leading journals including *Science, Journal of Neuroscience*, and *Neuropsychopharmacology*.
Young-Sup Yoon, MD, PhD
Professor of Medicine
Young-Sup Yoon completed his MD at Yonsei University College of Medicine in Korea (1989) and his PhD in Cardiovascular Biology at Yonsei University Graduate School of Medical Science in Korea (1998). Prior to joining the faculty at Emory in 2008, he held positions at Yonsei University College of Medicine in Korea and Tufts University School of Medicine. His primary research focus is the study of growing new blood vessels using bone marrow-derived stem or progenitor cells for the treatment of cardiovascular diseases. His articles have been published in a number of leading journals including Circulation and Circulation Research.

William Dynan, PhD
Professor of Radiation Oncology
William Dynan completed his PhD in Oncology at the University of Wisconsin (1980). Prior to joining the faculty at Emory in 2012, he held positions at Georgia Health Sciences University and University of Colorado-Boulder. His primary research focus is DNA damage and repair. His articles have been published in a number of leading journals including Cell, Nature, Journal of Biological Chemistry, Journal of Immunology, Oncogene, and Archives of Head and Neck Surgery.

Michael J. Gambello, MD, PhD
Associate Professor of Human Genetics
Michael J. Gambello completed his MD and PhD at the University of Rochester School of Medicine and Dentistry (1993). Prior to joining the faculty at Emory in 2012, he held positions at the University of Texas Health Science Center at Houston. His primary research focus is the autosomal dominant disorder tuberous sclerosis complex. His articles have been published in a number of leading journals including Nature Genetics, Journal of Cell Biology, and Human Molecular Genetics.

Joanna Goldberg, PhD
Professor of Pediatrics
Joanna Goldberg completed her PhD at the University of California, Berkeley (1986). Prior to joining the faculty at Emory in 2013, she held positions at Harvard Medical School and the University of Virginia. Her primary research focus is mechanisms of bacterial pathogenesis. Her articles have been published in a number of leading journals.
journals including *Journal of Bacteriology, Molecular Microbiology, Journal of Immunology,* and *American Journal of Respiratory and Critical Care Medicine*.

**Clinton H. Joiner, MD, PhD**  
**Professor of Pediatrics**  
Clinton H. Joiner completed his MD and PhD in Physiology and Pharmacology at Duke University (1977). Prior to joining the faculty at Emory in 2012, he held positions at Harvard Medical School, University of Alabama School of Medicine, and University of Cincinnati College of Medicine. His primary research focus is sickle cell disease. His articles have been published in a number of leading journals including *Cell, Blood, American Journal of Hematology,* and *Journal of Biological Chemistry*.

**Lawrence Scahill, MSN, PhD**  
**Professor of Pediatrics**  
Lawrence Scahill completed his PhD in Epidemiology and Public Health at Yale University (1997). Prior to joining the faculty at Emory in 2012, he held positions at Yale University. His primary research is autism and Tourette syndrome. His articles have been published in a number of leading journals including *New England Journal of Medicine, Archives of General Psychiatry,* and *Journal of the American Academy of Child and Adolescent Psychiatry*.

**ABOUT EMORY’S COLLEGES AND SCHOOLS**

**CANDLER SCHOOL OF THEOLOGY**  
Jan Love, Dean

Candler School of Theology opened in 1914 and is named in honor of Bishop Warren Candler, a president of Emory College and the first chancellor of Emory University. Candler is one of 13 seminaries of The United Methodist Church and its mission is to educate faithful and creative leaders for the church’s ministries in the world. It introduces five new degree programs in the next two academic years, bringing its total degree offerings to 16, including dual degrees with law, business, public health, bioethics, development practice, and social work. The school is home to Pitts Theology Library, one of the premier theology libraries in North America, with 589,000 volumes and more than 126,000 rare items.
COLLEGE OF ARTS AND SCIENCES

Robin Forman, Dean

Emory College of Arts and Sciences was established in Oxford, Georgia in 1836 by a small band of Methodists. It is named after American Methodist bishop John Emory. Asa Candler, the founder of The Coca-Cola Company, donated $1 million and seventy-two acres of land in Druid Hills, six miles northeast of downtown Atlanta, to transform Emory College into Emory University. The College relocated to this site in 1917. The mission of the College is to transform the world through leadership in research, teaching and service and is supported by an internationally recognized faculty. Most members of the College also teach in graduate or professional programs.

GOIZUETA BUSINESS SCHOOL

Lawrence M. Benveniste, Dean

The School of Economics and Business Administration was established in 1919 and collaborated with Emory College to offer courses in economics, accounting and business law. Renamed the Goizueta Business School in 1994 in honor of esteemed former CEO of the Coca-Cola Company Mr. Roberto C. Goizueta, the school offers students a world-class business education, combining functional specialization with a broad business perspective to create successful, principle-based leaders. With a portfolio of degree programs, including an undergraduate BBA, Two-Year and One-Year MBA, Evening MBA and Executive MBA, plus a non-degreed Executive Education program, Goizueta consistently ranks among the leading business schools in the nation.

LANEY GRADUATE SCHOOL

Lisa A. Tedesco, Dean

The James T. Laney School of Graduate Studies was organized as a distinct division of the University in 1919, and awarded its first PhD in 1948 to a student in chemistry. Named after James T. Laney, President emeritus of Emory University, the Laney Graduate School offers degrees in more than 40 programs across the humanities, social sciences, biomedical, biological and natural sciences, public health sciences, nursing and business. Led by a diverse graduate faculty of distinguished researchers and scholars, we are committed to graduate education that provides students with deep expertise in their chosen fields, creativity to cross disciplinary boundaries, and courage to take on the most important and complex problems of our time.

SCHOOL OF NURSING

Linda A. McCauley, Dean

Founded in 1905, the Nell Hodgson Woodruff School of Nursing at Emory University has established a reputation as one of the nation’s
leading nursing schools. The School of Nursing offers cutting-edge resources, top clinical experiences, and access to leading health care partners. With an emphasis on nurse leadership, service-learning, and global health, Emory’s School of Nursing trains students to serve a wide community, shape the future of nursing, and make a better world. US News & World Report ranked the School of Nursing 21st in its 2012 edition of “America’s Best Graduate Schools.” The nursing school has 472 students and 205 research, clinical, and adjunct faculty. In fiscal year 2012, the school received more than $7 million in research funding, supporting efforts in cancer, cardiovascular health, HIV/AIDS, sleep disorders, environmental health, caregiver well-being, and maternal and newborn health.

**OXFORD COLLEGE**

Stephen Bowen, Dean and CEO

Oxford College is Emory University’s distinctive freshman/sophomore college situated on the University’s original, historic campus 38 miles east of Atlanta in the village of Oxford. Its small campus setting is particularly conducive to significant academic accomplishments and personal development in the freshman and sophomore years. The Oxford College community is distinguished by its commitment to excellence in teaching; emphasis on leadership and teamwork; value for life lived in community; and innovative liberal arts curriculum.

**ROLLINS SCHOOL OF PUBLIC HEALTH**

James W. Curran, Dean

The Rollins School of Public Health ranks among the nation’s most prestigious schools of public health. Home to a faculty numbering over 200, and over 1100 master and doctoral degree students, the school is committed to promoting health, preventing disease and prolonging life locally, nationally and globally. The RSPH leads Emory University in joint degrees offered including the MD/MPH, MSN/MPH, MBA/MPH, JD/MPH, MDiv/MPH, MTS/MPH, PA/MPH, PT/MPH, Bioethics/MPH. Students and faculty are attracted to the opportunity to collaborate with some of the world’s premiere health organizations including the CDC, The Carter Center, CARE USA, the Task Force for Global Health and the American Cancer Society. Each of these relationships provides unique opportunities to engage in hands-on research and actual public health practice.
SCHOOL OF LAW

Robert Schapiro, Dean

Emory University School of Law enrolled its first students in the fall of 1916. The School’s mission is twofold: through teaching, to help intellectually gifted men and women fully develop their technical and theoretical knowledge as well as their moral capabilities for leadership roles in the profession of law, business and industry and/or government service; and through the quest for new knowledge and public service, to improve human well-being. Emory Law faculty members pursue path-breaking interdisciplinary scholarship across many fields, and the school houses a number of interdisciplinary centers and programs, including the Feminism and Legal Theory Project; the Project on War and Security in Law, Culture and Society; the Vulnerability and the Human Condition Initiative; the Center for the Study of Law and Religion; the Center for International and Comparative Law; and the Center on Federalism and Intersystemic Governance.

SCHOOL OF MEDICINE

Christian P. Larsen, Dean

Emory University School of Medicine, a component of Emory’s Robert W. Woodruff Health Sciences, is ranked among the nation’s finest institutions for education, biomedical research and patient care. Its newly appointed Dean, Dr. Christian P. Larsen, is a world renowned transplant surgeon. He also serves in the role as Vice President of Health Center Integration. Its wide-ranging educational programs include medical students, graduate students, residents, fellows, postdoctoral students, and students in the allied health professions. Allied health programs include a physician assistant and a physical therapy program both ranked in the top ten in the country.
